graphs and troubleshooting

taking off the equipment
1. Wear the chest band under the armpits and underneath your clothing.

2. Plug the breathing connectors into the outside socket of the chest sensor.

3. Plug one end of the breathing connector into the gold connector on the clasp as shown.

White box on the left side of your body. Cables pointing down towards your feet.
4. Plug the ECG connectors into the inside socket of the chest sensor.

5. Peel off the covering from the two electrode stickers. Place the stickers on your body as shown in the picture below.

6. Attach the ECG connectors to the stickers. You will hear them snap like a button.

   positive – center of chest
   negative – left side of ribcage
7. Plug the remaining breathing connector into the open gold connector on the clasp.

DONE! Your equipment and cables should look like this:
1. Make sure each wrist sensor is charged.

2. Wear the wrist sensor as shown, with the device face-up on your wrist and the buckle going over the top.

**Note:** It is important to always wear each sensor on the same wrist (left or right).

The wrist sensor may be warm while charging. This is expected and you should not be concerned. Please remove it from the charger 5 minutes before wearing to allow the band to cool sufficiently.
sensor data quality

- green check mark: good data quality!
- red caution: something’s not right
- red X: it’s not working at all

**how to take a survey**

When you get a survey, the phone will vibrate and make a sound. You will see the screen below.

Tap **CANCEL** to not take the survey.
Tap **OK** to take the survey.
Tap **DELAY 10 MINUTES** to wait 10 minutes.
1. If you smoke a cigarette, tap the Smoking Report button.

2. When the question below appears, tap YES to verify smoking has occurred or CANCEL to cancel the smoking report.

After tapping YES, sometimes you will get a survey. Sometimes you will not.
Privacy Mode allows you to turn off features for a limited amount of time.

1. Tap the *Turn On* button under Privacy.

2. Tap *Set Privacy Duration*.

3. Choose how long you want to be in Privacy Mode.
4. Tap *Set Privacy Type*.

5. Tap the checkboxes to choose which features you want to put in Privacy Mode then tap OK.

6. Tap *Start* when finished.
If you wish to view the plotter graph or troubleshooting tips for one of the sensors, tap the appropriate sensor button under the Sensor Data Quality heading.

One the next screen, you can tap to view the graph of data, troubleshooting videos, or tips for getting good data.

When finished, use the smartphone’s Back button to manually return to the mCerebrum app.
taking off the equipment

Take off all equipment right before bed.

1. You must tap the *End Day* button before you take off the equipment!

<table>
<thead>
<tr>
<th>Day</th>
<th>End Day</th>
</tr>
</thead>
<tbody>
<tr>
<td>Day Started</td>
<td>07:58:46 AM</td>
</tr>
<tr>
<td>Day Ended</td>
<td>-</td>
</tr>
</tbody>
</table>

2. Take the two wristbands off. Place each wristband face-down on the center of the charger.

Blue LED lights on the charger will slowly flash on and off repeatedly to confirm the wristband is charging.

continued on next page
3. Unplug the breathing cable shown below from the chest band.

4. Remove the two ECG connectors from the electrode stickers.
4. Take off the chest band and plug in the charging cable.
